

Blue House Band Input List

Production Requirements

- **We can run our own sound and provide all sound equipment**
- We use our own mixing console for in-ear monitoring
- In the event that we are not running our own sound:
 - All inputs will run through our splitter system, and labeled tails will be provided for FOH.
 - House Console: Minimum 16-channel console (e.g., Behringer X32, Midas M32, or better).
 - Microphones and DIs: We will need to use house microphones, xlr cables and mic stands for the vocals and drums.
